What is a domestic distillery license?

A domestic distillery is a distillery located in Montana. This license allows the manufacturer to legally import, manufacture, distill, rectify, blend, denature, and store spirits of an alcoholic content greater than 0.5 percent alcohol by volume for sale to ABCD or, in some cases, sell liquor out of Montana for sale in another state. It may also allow some distilleries to provide samples of spirits they produce for consumption on their premises with or without charge with an approved sample room.

Montana recognizes two types of distilleries. The term distillery means both a distillery and a microdistillery throughout the rest of this booklet:

1. Distilleries that produce 200,000 proof gallons or less annually within the state of Montana (**Microdistillery**).
2. Distilleries that produce over 200,000 proof gallons annually within the state of Montana (**Distillery**).

Any domestic distillery licensed in the state may own, lease, maintain, and operate a department-approved storage depot in any city or town in Montana. Distilleries may use the depots for receiving, handling, storing, selling, and distributing distilled spirits they produce. They may not use storage depots for manufacturing or consumption.

Where do I start?

A distillery license may be applied for directly from the Department of Revenue (DOR) Alcoholic Beverage Control Division (ABCD) and does not need to be purchased from an existing licensee unless you are buying the business and the distilled spirits inventory.

You may apply electronically through [TAP](#).

What are the associated costs?

- One-time distillery license processing fee: **\$200**.
- New domestic distillery license fee: **\$500**.
- One-time domestic distillery storage depot license processing fee (per storage depot): **\$100**, if needed.
- New domestic distillery storage depot license (per storage depot): **\$400**.
- Fingerprint card fee for each individual with 15% or more ownership interest in the business: **\$30 each**. Price subject to change.

- The application process takes on average 90 days and begins when ABCD receives a complete application package and all supporting documents.
- Application is then reviewed by the ABCD.
- Applicant will receive a letter requesting any additional documents, if needed.
- When all required documents are received, ABCD notifies local agencies with jurisdiction over the area of the application in process.

- Prior to final approval of any new location, it is the responsibility of the applicant to contact local building, health, and fire code officials to schedule inspections. ABCD may not approve an application until:

- o Local officials have given notice that the licensed premises meet their requirements.
- o A background check of the applicants(s) and a premises inspection have been completed for ABCD to determine if the applicant(s) and location meet suitability requirements.
- After the completion of the audit and investigation, ABCD conducts a final review of the application. If necessary, any additional or closing documents may be requested.
- Final approval is granted when the licensing specialist receives all finalized documents, inspections, and any outstanding issues or violations (if any) have been resolved.

What are the steps in getting distilled products approved?

NOTE: This MUST occur BEFORE selling distilled spirits in the state. This includes products sold in your approved sample room.

- You must complete the [Standard Quotation and Specification Form](#) for each of the products you wish to sell in Montana.
- ABCD uses the information supplied on the specification form to determine the posted price of each product. Includes the following:
 - o Markup
 - o Excise tax
 - o License tax
- Product packaging must be approved before selling distilled spirits products in Montana. This includes products sold in your approved sample room.
- Disclose the percentage of alcohol for each proof gallon of each product distilled at the distillery.

- Final products distilled at the premises and mixed with a purchased bulk spirit must be disclosed to ABCD.
- Questions on any of the above information email the ABCD Liquor Distribution Bureau at doralcoholicbeveragecontrol@mt.gov .

What taxes does a distillery pay?

All Montana distilleries must file a monthly Excise and License Tax Return. Microdistilleries are required to electronically file their tax return on or before the 15th day of each month for liquor sold during the previous month.

A distillery pays an excise tax on products sold from its tasting room. Distilleries do not pay tax on products sold to the state

for distribution to agency liquor stores.

The license and excise taxes for products are based on the proof gallons manufactured, distilled, rectified, bottled, processed, and sold nationwide in the previous calendar year and collected per bottle. You may calculate prices using one of the calculators in our [TransAction Portal](#).

License Tax	
Production (Proof Gallons)	Tax Rate
Less than 50,000	2%
50,000 - 200,000	8.6%
More than 200,000	10%

Excise Tax	
Production (Proof Gallons)	Tax Rate
Less than 20,000	3%
20,000 - 50,000	8%
50,001 – 200,000	13.8%
More than 200,000	16%

If a distillery did not file a return for a month, generally that period would be estimated and assessed. However, the distillery may provide information showing their tax liability was under \$10 for the month.

Need help filing any of these forms? Call the ABCD Liquor Auditor at (406) 444-2909 or email ABCD at doralcoholicbeveragecontrol@mt.gov.
